

## AMERICAN RED CROSS AND OTHER AGENCIES AID STRICKEN PEOPLE

URGENT APPEAL FOR HELP  
COMES FROM AUTHORITIES  
OF STATE AND CITIES

By Associated Press.  
Washington, Sept. 20.—President Coolidge today appealed to the American people to come to the assistance of sufferers in the Florida disaster.

By Associated Press.  
Washington, Sept. 20.—The nation-wide relief machinery of the American Red Cross was at work today carrying aid and comfort to the thousands left injured and homeless in the wake of the Florida hurricane.

From a score of sources its hastily marshaled forces sped to the scene of disaster while others of its units at home were preparing supplies to be shipped to the devastated Miami area.

The call to action came quickly after Governor John W. Martin in a telephone message from the state executive mansion at Tallahassee had made an urgent appeal for help. He authorized the National Red Cross headquarters here to take complete charge of all relief work.

Complying with his request, Robert S. Parker, head of the Red Cross unit in Atlanta, was directed to ship six car loads of supplies at once to Miami and to prepare to send more as soon as the demands of the situation were known.

Officials also indicated that probably some time during the day an appeal will be issued to the American public for funds to care for those made destitute.

In a Presidential proclamation he asked that contributions to a relief fund be sent to the American Red Cross.

He promised that the Federal Government would render "such assistance as is within the means of the executive departments." Meantime several agencies of government already were at work to provide relief. Eight coast guard ships were ordered to Miami, postmasters in Florida were authorized to do whatever they could for sufferers, army officers in the State were ordered to operate in every way with relief workers, and Florida naval reserves were called to active duty and sent into the disaster zone.

The Red Cross was concentrating in Southern Florida its most efficient relief personnel and the best available equipment. National headquarters itself made an initial contribution of \$100,000 to the relief fund.

Spirit of Humanitarian Arises  
Jacksonville, Fla., Sept. 20.—The spirit of humanitarianism swept out to combat the forces of destruction today as citizens of every State hurried relief into the hurricane-swept area of Southern Florida.

Ten trains bearing foodstuffs, medical supplies, water and facilities of protecting refugees came into the storm area last night, while physicians, nurses, fraternal organizations and private citizens joined forces in gathering materials for which there is urgent need.

Trains from Lakeland, Avon Park, Tampa, Sanford and Sebring put out for the Lake Okeechobee region, where a death toll of more than 100 was reported at Moorehaven.

Into the Miami vicinity went trains from Jacksonville, Fort Pierce, West Palm Beach, Orlando and Tampa. Preparations for other trains were being made as railroad officials announced that gradually right of ways were being cleared.

Offers of aid poured in from a saddened nation as the people of Florida took up their tasks.

## NEW ORLEANS NOW PREPARING RECEIVE HURRICANE'S FORCE

By Associated Press.  
New Orleans, Sept. 20.—Fleeing before the approaching storm, hundreds of New Orleans residents left the resort cities of the Mississippi coast last night for a haven in their homes here.

While non-residents left the city, residents of the coast made preparations for the blow, followed headed for the Mississippi and Louisiana coasts after wreaking heavy damage on the southern part of the Florida Peninsula.

Barometers from Pensacola, Fla., Burwood, La., were slowly falling and tides rising steadily with mounting to gale proportions.

Regular trains and a special Mississippi coast train here last night brought Orns back to their homes while highway connecting the two was crowded with motor-traffic.

Residents of Louisiana towns are seeking refuge far and wide.

Warning has been given

## DECOMPOSED BODY OF AFTON MAN IS FOUND CARL SWITCH

BULLET HOLE THROUGH  
HEAD INDICATED MAN HAD  
BEEN MURDERED

By Associated Press.  
Dallas, Texas, Sept. 20.—No trace of a negro believed to have slain J. C. Nance, Roaring Springs farmer, who was found dead in the creek bottoms near Corsicana with a bullet hole in his head, Sunday afternoon, has been found by Dallas police searching the city in the belief the killer fled here.

Nance, who was seen with the negro in search of cotton pickers last week, is thought to have been shot for a large sum of money he is believed to have carried.

The decomposed body of J. C. Nance, aged 29 years, of Afton, Texas, fifteen miles southeast of Roaring Springs, Texas, which was found on the banks of Cummings creek, near Carl Switch, seven miles north of Corsicana Sunday afternoon at 1 o'clock by a Mexican boy about eight years old, will be shipped to his home either Monday night or early Tuesday morning for interment.

The deceased is survived by his father, a Carl county, his wife and one child.

G. T. Andrews, father-in-law of the deceased, and A. C. Martin, both of Afton, arrived in Corsicana Monday morning and took charge of the body, which was brought to the Sutherland Undertaking Parlors Sunday afternoon.

The theory of officers of Rice, who have been investigating the affair, is that he was murdered. One pistol wound which penetrated the head and brain was found. A .38 Cal. pistol was found nearby the body. It is the opinion of those who are investigating the affair that he was buried there for the purpose of robbery and the person or persons who are thought to have killed him, placed the pistol there to lend color to a supposition that it was a case of suicide.

Mr. Andrews stated that he was not armed when he left his home and that he had urged him to take a pistol with him, but he declined. He stated that Mr. Nance left Afton with the intention of going to Sulphur Springs, Texas, for cotton pickers and is of the opinion that he met a negro either in Fort Worth or Dallas and was lured away to the place where his body was found.

According to City Marshal Polk of Rice, it was reported that a negro and a man suiting the description of Mr. Nance came in on the interurban from Dallas and one of the conductors overheard a conversation between them relative to the possibility of getting cotton pickers near Carl Switch. Some one at the station at Rice Friday night was advised of this who had and in the vicinity of Carl Switch and they are reported to have hired a service car and went to Carl Switch and are alleged to have heard the report of gun several hundred yards from Carl Switch.

Mr. Polk stated that a negro and a man suiting the description of Mr. Nance came in on the interurban from Dallas and one of the conductors overheard a conversation between them relative to the possibility of getting cotton pickers near Carl Switch. Some one at the station at Rice Friday night was advised of this who had and in the vicinity of Carl Switch and they are reported to have hired a service car and went to Carl Switch and are alleged to have heard the report of gun several hundred yards from Carl Switch.

To those who want their paper  
changed from one address to another, please give old address as  
well as new. It will cause less  
delay and we can give much better  
service to our subscribers.

IS YOUR CHILD PHYSICALLY  
FIT?

Some three thousand children  
are now attending the schools of  
Corsicana. The parents owe it to  
their children to see that they are  
in the best of physical condition  
so that they can get all that is  
possible out of their school years  
under the best possible conditions.  
A sickly child cannot do his best  
work and many of the children who  
are sick have only minor ailments  
that can be easily corrected if the  
child is examined by a capable  
physician.

That physical fitness of children  
has much to do with their school  
progress as well as their ultimate  
success in life, is the opinion of  
Dr. H. O. Sappington, state health  
officer, who urges parents to see  
that their children are in good  
physical condition while attending  
school.

"Bad eyesight, adenoids, dis-  
eased tonsils, decayed teeth, and  
other physical defects should be  
corrected, as they are handicaps  
that prevent the child from keeping  
pace with other children who  
are free from such defects. Im-  
posing a handicap on the child as  
well as a tax on the community,"

Dr. Sappington points out. Con-  
tinuing he says: "Many hundreds  
of children in Texas fail each year  
to make their grades through no  
fault of their own, but because of  
some physical handicap. This en-  
tails a heavy economic loss as it  
is estimated that it costs the state  
approximately \$50.00 for each child  
that repeats a grade. For the sake  
of all concerned, take your child  
to your family physician for a phys-  
ical examination before the open-  
ing of school."

**FIRE PREVENTION WEEK.**

The Governor of Texas through  
proclamation has set aside October  
2 to October 9, as Fire Prevention  
Week. In the proclamation it is  
pointed out, "year by year, the de-  
struction of property by fire in  
America has been mounting until  
the total loss is more than  
\$600,000,000. This means a waste  
each day of an average of \$1,350,-  
000 of resources which we can ill  
afford to lose. But far worse than  
the destruction of valuable property  
is the toll of human life  
through fire. The average number  
of persons burned to death each  
day in the United States is stated  
to be forty-eight."

In the proclamation it is also  
urged that all city officials, civil  
and commercial organizations,  
school officers and teachers at  
public meetings and exercises for  
the study of fire prevention prob-  
lems and for impressing on the  
public the seriousness of the waste  
caused by fire and the need of the  
utmost care in protecting life and  
property from danger.

In the state of Texas last year  
there was more than twenty million  
dollars worth of property and 284  
lives destroyed by fire. A conserva-  
tive estimate is that eighty-five  
per cent of fires are from prevent-  
able causes.

The seriousness of the fire hazard  
was forcibly brought home to  
the people of Corsicana and Navar-  
ro county recently when a Navar-  
ro county man lost his life in  
a Waco fire and three persons were  
burned to death in a Hillboro fire.  
People cannot exercise too much  
caution in taking preventative  
steps in safeguarding against  
fires.

Take an active part in the pre-  
vention week in Corsicana. Ex-  
amine your own premises and as-  
certain if you are harboring any  
fire hazards in your home or place  
of business. No one is exempt  
from the fire hazard. The demon  
of flame may visit you at any  
time and you may be the next to  
pay the price of carelessness with  
your county.

a heavy property loss or the loss  
of some member of your family.  
By a united effort on the part  
of the citizenship the fire loss can  
be reduced year by year.

### GERMANY JOINS UP

The election of Germany to the  
League of Nations is a reality.  
Eight, six, four years ago such a  
thing was incredible, even though  
the League plans connote not a  
group of some nations but of all  
nations. The mere fact that eight  
years after the war there is a  
League of Nations to which a de-  
feated Germany may attach itself  
is a significant thing.

Hatred fades under the rays of  
time. The process may be slow,  
but in all except a few instances  
it is sure. Strange enough, though,  
it was not the sloughing off of hate  
of war that brought Germany's  
election so much as the League's  
design that every nation shall be  
made part of it.

The great virtue of the League  
is its world-wide character. In this  
respect it differs from all other  
projects to preserve world peace.  
Peace was sought hitherto by  
groups of nations, alliances, en-  
tentes and kindred clusters of sov-  
ereign nations. That only breed-  
ed war, as history shows. The new  
formula born of the great conflict  
is that there will be but one al-  
liance, one entente and all shall  
be a member of it.

That is why it is so essential  
that not only Germany but the  
United States and Mexico and  
Turkey, the last-named already  
battling with Geneva should  
become enrolled. Until they are the  
League must necessarily be handi-  
capped. When they do join, the  
world will be nearer permanent  
peace than it has ever been. As a  
step in this direction, consequent-  
ly, the election of Germany to the  
League is gratifying to every per-  
son who prefers a world of peace  
to a world at war.

### HEROES.

The name Brown appears large  
in the headlines. Brown, we are  
led to believe, won the game. A  
five-column photograph shows us  
Brown in the act of carrying the  
ball over.

But who is the unidentified  
youngster with the long legs who  
is one step ahead of Brown in the  
photograph? His name is Smith,  
and he isn't a hero. He doesn't  
count.

Brown carried the ball over the  
goal line five times, and all this  
fellow Smith had to do was to lope  
at his side and block tacklers who  
had designs on Brown. He merely  
cleared the way and reduced  
Brown's duties to the simple busi-  
ness of trotting behind and clinging  
to the ball.

Insignificant Smith! Glorious  
Brown!

Dispatches from the front inform  
us that the gallant Four Hundred  
and something stormed the  
ridge and cleared out a nest that  
had threatened the line for weeks.  
Actually stormed the position,  
right up that steep hill!

Glorious achievement!

Of course there were many bat-  
teries in the rear that bombarded  
the ridge for an hour before the  
advance and laid down a creeping  
barage that destroyed every liv-  
ing thing on the ridge and before  
it, but these batteries merely killed  
off the enemy and made the ad-  
vance possible. That was all.

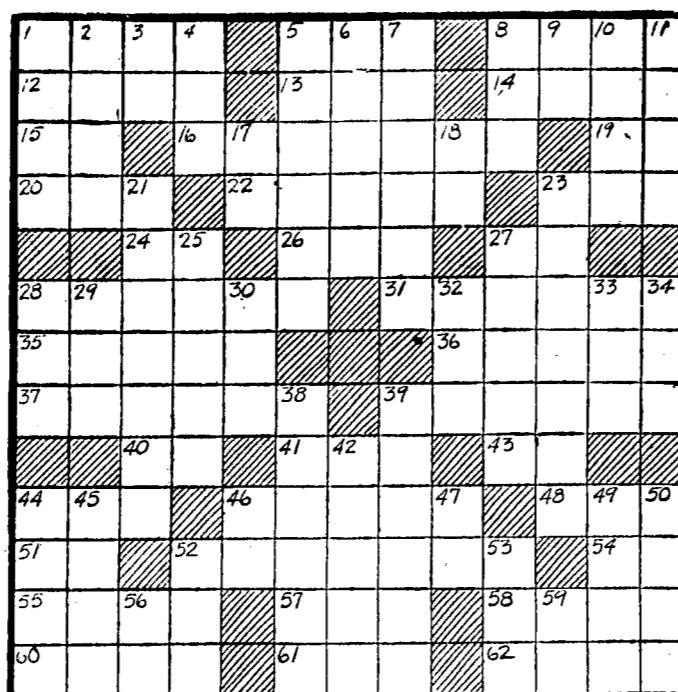

Two brothers get jobs and feed  
the family in order that a third  
may be relieved of obligation and  
may get an education. The third  
is favored, makes the most of  
his opportunity and achieves distinc-  
tion. The public prints praise  
him. He is the family hero—the  
neighborhood hero. Nobody men-  
tions the two who made him what  
he is—who sacrificed themselves  
to confer greatness upon him.  
They were mere interference.

The spotlight covers little ter-  
ritory. It reveals the man who  
stands high. It seldom reveals  
those who hold him up. The history  
of wars is a biography of gen-  
erals. They carry the ball. The  
lesser patriots who furnished the  
interference figure in history only  
as statistics.

It will not be many years before  
every child in Navarro county will  
ride to school in a motor bus over  
hard-surfaced highways regardless  
of weather conditions. The Prov-  
idence school district is pioneering  
in the school bus field and the  
school officials are to be congrat-  
ulated on their progressiveness.  
There is little doubt that other  
school districts in the county will  
soon follow suit—all of which will  
play a very important part in the  
bringing of good roads to Navar-  
ro county.

## Farmers Want BROOD SOWS WILL BE FURNISHED HERE BY CITY BANKERS

Rates—One cent a word for each  
insertion. Count your words, send  
ad to this office, giving number of  
times you want it to run, together  
with check or money order to  
cover cost. No ad taken for less  
than 25 cents. Cash must accom-  
pany each ad.

STOLEN OR STOLEN—From my pas-  
ture north Orange River, one spotted  
cow, 5 months old. Reward for  
information leading to their return.  
J. W. MCGOWAN.

WANTED—Cotton pickers come large fam-  
ilies preferred to help gather crop. Will  
pay one-half the acre to acre. James  
E. Fowler, Powell, Texas, Route 2.

FOR SALE—10 acres traps 1 mile east of  
Corsicana on bankhead of Arkansas River.  
Good house and out house, fine well  
water. For offers see or write J. P. Tidmore,  
McKinney, Texas.

FOR SALE—Registered jersey cattle, 3  
cows, 2 bulls to sell or exchange. Some  
calves and heifers, fine in a barren. R. L.  
McKinney, McKinney, Texas.

SALE—The Republic Building and  
Land Association is interested in ready-  
ing arrangements for local representative in  
Corsicana district to sell its investment  
stocks of \$200.00 per month steady. Only  
responsible men of good report will be  
considered. Satisfaction will be given  
in writing full information about your  
representative. Applications will be treated  
on individual basis. Address: Secretary  
Kirk Building, Dallas, Texas.

FOR SALE—One acre, 100x100, 1 mile east of  
Corsicana on the side of the  
Arkansas River at the old Miller Dairy. Mail  
address: Route 3, Corsicana.

ALLEN, J. P.—50 acres land and house, 200  
feet front, two miles east. Call at 732 North  
Street.

FOR SALE CHEAP—One large Gardner  
meal box pump, one 500 barrel steel tank,  
2 small engines, a wheel barrow, shovel,  
spade, pick, a 500 pound sack of lime, a  
shovel, 5th St. Phone 1553-W.

DRESSER ROOMS—Sale 25¢ \$1.00  
per week with bath, all cost outside  
rooms, nicely furnished and well cared  
for. Also 2 and 3 room furnished apart-  
ments. \$5.00 a week with gas, water,  
heat, bath and phone service included.  
601 S. 7th St. Phone 1553-W.

## ACUTE SITUATION IN TEXAS LABOR IS HAMPERING HARVEST

### SAN ANTONIO REPORTED AS ONLY PLACE WHERE COTTON PICKERS AVAILABLE

There apparently exists one of the most acute situations in Texas for labor at the present time than at any time during recent years, according to communications received by the Corsicana Chamber of Commerce from various points of the State.

The Department of Agriculture with headquarters in Fort Worth has issued a bulletin stating that San Antonio is the only place in Texas where cotton pickers are available and that they are drifting into San Antonio from the fields of South Texas but that there are scores of farmers in San Antonio to get the pickers as fast as they arrive.

The government bulletin stated that the department has received requests from various places, including the southern portion of Missouri, which is the first time in recent years that the requests have come from Missouri.

The Corsicana Chamber of Commerce stated that it had been advised that there were cotton pickers in the Denison section but a telegram was received from Denison stating that there was not any surplus pickers there.

A letter from the Corpus Christi Chamber of Commerce has been received stating that the cotton in that section was about one month later than usual and all of the labor was being used there at the present time but could be secured probably later in the season.

A letter from the Brownsville Chamber of Commerce has been received here to the effect that there was not any surplus of laborers there now due to the stringent immigration regulations that curtails the Mexicans from coming to Texas. The letter pointed out that the Mexican labor was scarce.

Cotton is late in several sections and in the majority of the State cotton is opening at the same time and does not give the drifting labor a chance to go from one section to the other as has been the case in former years. All of the cotton is ready to pick and a scarcity of labor exists.

## AN OLD FASHIONED SPELLING MATCH DREW LARGE CROWD TO U. D. C. ENTERTAINMENT

The local chapter of the U. D. C. of which Mrs. Hal Peck is president, staged an old fashioned spelling match Friday evening, at 8 o'clock, at the former Elks Club. As this was the first entertainment of this nature to be given in Corsicana for many years, it having recently become so popular, much interest was manifested and quite a crowd assembled for the fun.

As a preface to the spelling match a parade of bobbed and unbobbed heads was staged. The bobbed ones were led by Mrs. Randolph Jackson, and the unbobbed by Mrs. Billy Peck, Jr. As it happened, much to the surprise of all, the unbobbed outnumbered the bobbed by eight or ten. To the strains of music the two long lines marched in by separate entrances and staged a grand march, which was heartily applauded by the onlookers. Mrs. Hal Peck, with unloosened tresses reaching her knees and Mrs. Randolph Jackson with a becoming bob, were selected by the judges as winners of the prize—a large cake. In the draw, Mrs. Peck won, and straightway presented it to the U. D. C. to be raffled. Mrs. Perry McCammon held the lucky number, and bore the prize home.

It was indeed hard to decide which was the more attractive style in hair dressing for the women when the bobbed and unbobbed participants marched in with two such very attractive young matrons at their head as Mrs. Jackson and Mrs. Peck, each representing in their own way the acne of beauty and style in the manner of wearing their hair as well as charm of personality. This feature of the evening was highly enjoyed by all.

In the spelling match Mr. T. J. Newsom and Mrs. W. C. Van Hook chose sides, and Miss Florence Bright gave out the words from the old blue book speller. Mr. Perry McCammon was the first to go down, thereby winning the A B C book presented at the close of the match. Every one stood the test, until the words "cinnab" and "tertian" were noticeably passed by this popular body of faithful women.

## FEDERAL GOVERNMENT HAS UNUSUAL DISPLAY OF ITS ACTIVITIES FOR CHILDREN

Special to the Sun. Philadelphia, Pa., Sept. 18.—A children's clinic in active operation, a baby "fashion show," a model nursery, a model playground, moving pictures and film slides are among the exhibits of the Children's Bureau of the U. S. Department of Labor at the Sesqui-Centennial where the Federal Government has an unusually interesting display of its activities.

Striking the keynote of the exhibit and of the work of the Children's Bureau, is a great mural 18 feet by 7, entitled "The Child Shall Be First," painted for the Bureau by Mangravite. This faces the entrance to the Children's Bureau exhibit. In the foreground of the painting, America, a tall and beautiful mother, stands in a blossoming orchard, a child on her shoulder and little children playing about in the sunshine in the protection of her presence.

This beautiful and symbolic painting will remain the chief attraction of the Children's Bureau exhibit throughout the period of the Sesqui-centennial.

The most popular feature of the Children's Bureau exhibit is the children's health conference or clinic which opened on Saturday, August 14, under the direction of Dr. Caroline E. Whitney, assistant medical officer of the Children's Bureau. This is a demonstration of work now going on in 43 States under the Maternity and Infancy Act, administered by the Children's Bureau.

Before the clinic, which is open daily except Monday for the free examination of babies and little children, was fairly under way, mothers and fathers were presenting their babies for examination, and appointments were being made for a week in advance.

In one afternoon there were examined little children from Martinsville, Ohio; Long Beach, Calif.; Sapulpa, Okla.; Wilmington, Del.; Brooklyn, N. Y.; New York, N. Y.; and Philadelphia, Pa.

The interest of parents, fathers no less than mothers, in the opportunity afforded them to see and judge for themselves the value and importance to child health of a thorough physical examination conducted according to the most approved scientific standards was instantly apparent. Fathers and mothers, some with babies in their arms, and accompanied by older children, gathered outside the picket fence around the children's pavilion to watch the examination in progress in the glass-enclosed room where Dr. Whitney with stethoscope, measuring tape, tongue depressors, and other aids to scientific observation tested, measured, examined, and gave advice on the baby in hand, whose father and mother listened with eager interest to the doctor's summing up of the baby's case.

The first step in the examination of each child is the taking of the name and address of the child and its parents. The mother or other relative who brings the baby to the clinic then undresses the child and is given a robe of white cotton flannel in which it may be wrapped until the Doctor is ready for it. Next the child is weighed and

Mr. and Mrs. P. Mayer will leave Corsicana Sunday morning by automobile for Dallas where they will take the train for Kansas City for the purpose of attending the National Postmaster's Convention, which will convene in that city on Tuesday, September 21 and last through Friday, the 24th. Mr. and Mrs. Mayer expect to be absent ten days.

Mr. Mayer stated that all the leading postmasters of the county as well as Postmaster General New and other officials of the Post Office Department will be present and participate in the program.

Read the Sun—get all the news.

## FEDERAL TROOPS HUNTING DOWN AND SLAYING BANDITS BODY OF MURDERED AMERICAN BUSINESS MAN REACHES MEXICO CITY

Reduced in length. Finally Mr. Newsom was left alone on his side with four on the other for a while, then two, when the word "equinoctial" flooded all. Mr. Newsom, and Mrs. Mortie Kerr, who championed her side, tied for the prize, Mrs. Kerr winning in the cut. The prize was a box of candy.

An attractive feature of the affair were the old-time costumes worn by Mesdames W. D. Fountain, W. G. Baker and Hal Peck. These were not in any way what one would call "facky," but they brought to mind, especially to the older generation, the days when the belles of the day were adorned in the costumes depicted, and were just as attractive then as the most recherche sub in all her glory of bobbed-hair, short skirts and happy abandon is today.

Another very pleasing feature was the fact that there were numerous former pupils of Miss Florence Bright, who has been a faithful and efficient and much-loved teacher in the Corsicana public schools for many years, in the line and she stated that she was especially hopeful that they would give a good account of themselves. However, some of them failed on apparently easy words after spelling words that were far more difficult to the majority of spellers.

Misses Marie and Lila Rose Carson presided over a grab bag, at ten cents a chance, which added a neat little sum to the evening's proceeds.

Mrs. Hal M. Peck, the very efficient president of the Navarro Chapter, United Daughters of the Confederacy, and her corps of assistants, conducted this very pleasant affair in a most entertaining way, and the evening was greatly enjoyed by all, both by those who participated in the bobbed and unbobbed parade, and the spelling match. This is the first of a series of entertainments which the Daughters hope to give during the Fall and Winter months for the various charities and other matters sponsored by this popular body of faithful women.

The body of Mr. Rosenthal has reached Mexico City from the scene of his murder and the necessary formalities to sending it to his home are in progress. Meantime, Federal troops are scouring the region where the crime was committed in an endeavor to round up the rest of the bandits.

In reply to another formal note sent by the American Embassy to the Foreign Office the Embassy has received assurances that the Mexican authorities have been doing and will continue to do everything possible to round up and punish the murderers.

Carrying Arms ForbIDDEN.

All armed men in the region where Mr. Rosenthal was killed are likely to receive short shift from the authorities, as a recent law forbids the carrying of arms.

While the bandits killed last night confessed that they were members of the gang which kidnapped Rosenthal, they said other members of the band had murdered him.

A post-mortem examination revealed three knife wounds and a pistol shot through Mr. Rosenthal's forehead.

Laconic statement from police headquarters that the three confessed bandits who were shot last night "were killed during the fight" in interpreted as euphemistic manner of announcing their summary execution.

Other features of the Bureau's exhibit, particularly the nursery and playground models, receive a great deal of attention. The former approximately 4 by 8 feet, shows the interior of a model nursery in miniature. The latter, approximately 3 by 5 feet, 6 inches, is a reproduction of a five-acre city playground, adequately equipped with swimming pool, tennis courts, baseball diamonds, swings, ladders and flying rings, for daily use by 300 boys and girls.

In the baby fashion show are baby dolls in real costumes of the 18th, 19th and 20th centuries, borrowed for the Exposition, through the courtesy of the National Museum, from Mrs. Allen M. Samuel and Mrs. Mary Norton Lower. The 18th century cradle is the loan of Mrs. Minnegerode Andrews of Washington, D. C.

There are also two motion pictures in the Bureau's exhibit— "Well Born," showing simply and convincingly the essentials of prenatal care, and "Posture," a film produced under the supervision of Dr. Armin Klein, whose work as director of the posture clinic of the Massachusetts General Hospital and of posture clinics for the city health department of Boston has attracted wide attention. These are shown in portable projectors.

During September a posture demonstration will be given daily in the auditorium on Amusement Row and five more "elbow room" there. Concrete paving has been laid in front of the auditorium and on the street running through the Gaston Park section, while new concrete pedestrian walks have been placed about the "Spanish Village," or main exhibit building, and the Fine Arts building. Additional tree attractions, including band and organ concerts by Thavis' Band and Singers and Ralph Emerson of Chicago, will be given daily in the auditorium, while every night, with matinees Sunday, Tuesday, Thursday and Saturday and Saturday "Princess Flavia" will be the attraction.

YOUNG SNYDER GIRL SHOT SELF THROUGH HEART THURSDAY

By Associated Press.

Snyder, Texas, Sept. 17.—Although Gladys Evans, aged 16, high school student, wrote two notes declaring that "this is an awful thing to do" and that "you will never know why I did this," friends and relatives Friday expressed the belief that Miss Evans shot herself through the heart Thursday because she could no longer bear to be an orphan.

The girl's father and mother died of influenza on the same day several years ago and since then she and her four brothers and sister have lived in five different places, distributed among relatives.

Thursday Miss Evans was playing the phonograph in a room by herself and Mrs. John Cole, her cousin with whom she was staying, heard a shot. She rushed into the room in time to see the dying girl thrust a revolver under the mattress.

## NEWSPAPERS WILL NOT BE SHUT OFF FROM PUTTING BIG BATTLE ON THE AIR

### STANDING FIELDS OF CORN THREATENED BY RAISING WATERS

### BUNDLES OF GREEN CORN COVERED WITH SAND BAGS HOLDING FLOOD BACK

By Associated Press.

Mexico City, Sept. 18.—Thirteen men have been killed by Mexican troops pursuing bandits who stabbed Jacob Rosenthal of Woodmere, N. Y., to death after holding him for ransom.

Six of those killed were regarded by the troops as guilty bandits; the others were suspects.

Three known bandits were killed when soldiers disguised as civilians went to their lair ostensibly to pay them the \$10,000 ransom which had been demanded.

Seven suspects were killed yesterday in fighting with Federal troops near Huiztla.

The three other men who had

been identified by Joseph Ruff, Mr. Rosenthal's son-in-law as having been with the bandit party which last Sunday robbed the members of Mr. Rosenthal's automobile party and took him away

to the mountains were shot last night when an attempt to rescue him was made. It was announced.

Three men slain.

These three had confessed. They were being taken under military escort from Mexico City to Huiztla, to be examined at the scene of the kidnapping.

A statement issued by the police says "a party of men, presumably their bandit friends, attempted to rescue them, and in the ensuing fight they were killed."

The body of Mr. Rosenthal has

reached Mexico City from the scene of his murder and the necessary formalities to sending it to his home are in progress. Meantime, Federal troops are scouring the region where the crime was committed in an endeavor to round up the rest of the bandits.

In reply to another formal note sent by the American Embassy to the Foreign Office the Embassy has received assurances that the Mexican authorities have been doing and will continue to do everything possible to round up and punish the murderers.

Carrying Arms ForbIDDEN.

All armed men in the region where Mr. Rosenthal was killed are likely to receive short shift from the authorities, as a recent law forbids the carrying of arms.

While the bandits killed last night confessed that they were members of the gang which kidnapped Rosenthal, they said other members of the band had murdered him.

A post-mortem examination revealed three knife wounds and a pistol shot through Mr. Rosenthal's forehead.

Laconic statement from police headquarters that the three confessed bandits who were shot last night "were killed during the fight" in interpreted as euphemistic manner of announcing their summary execution.

Other features of the Bureau's exhibit, particularly the nursery and playground models, receive a great deal of attention. The former approximately 4 by 8 feet, shows the interior of a model nursery in miniature. The latter, approximately 3 by 5 feet, 6 inches, is a reproduction of a five-acre city playground, adequately equipped with swimming pool, tennis courts, baseball diamonds, swings, ladders and flying rings, for daily use by 300 boys and girls.

In the baby fashion show are baby dolls in real costumes of the 18th, 19th and 20th centuries, borrowed for the Exposition, through the courtesy of the National Museum, from Mrs. Allen M. Samuel and Mrs. Mary Norton Lower. The 18th century cradle is the loan of Mrs. Minnegerode Andrews of Washington, D. C.

There are also two motion pictures in the Bureau's exhibit— "Well Born," showing simply and convincingly the essentials of prenatal care, and "Posture," a film produced under the supervision of Dr. Armin Klein, whose work as director of the posture clinic of the Massachusetts General Hospital and of posture clinics for the city health department of Boston has attracted wide attention. These are shown in portable projectors.

During September a posture demonstration will be given daily in the auditorium on Amusement Row and five more "elbow room" there. Concrete paving has been laid in front of the auditorium and on the street running through the Gaston Park section, while new concrete pedestrian walks have been placed about the "Spanish Village," or main exhibit building, and the Fine Arts building. Additional tree attractions, including band and organ concerts by Thavis' Band and Singers and Ralph Emerson of Chicago, will be given daily in the auditorium, while every night, with matinees Sunday, Tuesday, Thursday and Saturday and Saturday "Princess Flavia" will be the attraction.

YOUNG SNYDER GIRL SHOT SELF THROUGH HEART THURSDAY

By Associated Press.

Snyder, Texas, Sept. 17.—Although Gladys Evans, aged 16, high school student, wrote two notes declaring that "this is an awful thing to do" and that "you will never know why I did this," friends and relatives Friday expressed the belief that Miss Evans shot herself through the heart Thursday because she could no longer bear to be an orphan.

The girl's father and mother died of influenza on the same day several years ago and since then she and her four brothers and sister have lived in five different places, distributed among relatives.

Thursday Miss Evans was playing the phonograph in a room by herself and Mrs. John Cole, her cousin with whom she was staying, heard a shot. She rushed into the room in time to see the dying girl thrust a revolver under the mattress.

## AMERICAN RED CROSS AND OTHER AGENCIES AID STRICKEN PEOPLE

(Continued from page 1)

Shipping and many smaller vessels are anchored in the protected harbors until the blow passes.

### Local Red Cross Asked to Lend Aid

Rev. H. J. Ellis, Rector of St. John's Episcopal Church, chairman of the Navarro County Chapter of the American Red Cross, has received the following call for aid from the Florida storm sufferers:

"Red Cross mobilizing all resources for relief of disaster sufferers in the Florida hurricane. Your chapter should give immediate publicity to this fact, calling attention to the great loss of life and the large number of injured and homeless, announcing your readiness to receive and forward contributions. This word should go to the entire chapter jurisdiction. Remit daily the sums received."

The message was signed by Wm. M. Baxter, Southwestern Red Cross chairman, at St. Louis, Mo.

The Rev. Mr. Ellis has asked that all who will contribute to this call for aid for a suffering people to send their contributions to the Daily Sun. Make checks payable to the American Red Cross. The Rev. Mr. Ellis places this matter before the Corsicana and Navarro county public with the full belief that ready response will be the result.

### Gulf Ports Showing Signs High Winds

By Associated Press.

Galveston, Texas, Sept. 20.—Radio reports reaching here this morning from Pensacola, Mobile, Gulfport and New Orleans indicated the wide sweep of the storm approaching the north central section of the Gulf Coast.

At 10 o'clock the barometer reading at Pensacola was 29.10 with the wind blowing at 100 miles an hour from the northeast, the report said. Earlier in the day the barometer reading at Pensacola was 29.08. The report gave the barometer readings and wind velocity at the other points at 10 o'clock to day as follows:

Mobile, barometer 29.26; wind 85 miles northeast. Gulfport, barometer 29.42; wind 45 miles northeast. New Orleans, barometer 29.61; wind 25 miles northeast.

Pensacola was the only one of the four points where the barometer showed any tendency to rise, according to these reports.

At noon another report received by radio from New Orleans said the Weather Bureau there expected the center of the hurricane to pass to the east of New Orleans and that high winds might be expected there along with high tides on Lake Pontchartrain. No further news had been received from Pensacola, Mobile and Gulfport.

By Associated Press.

Mobile, Ala., Sept. 20.—(Via telephone to Hattiesburg, Miss.) At 1:45 o'clock this afternoon the official reading of the United States Weather Bureau's barometer showed 28.91 and was gradually dropping. The wind at that hour was 94 miles an hour and was increasing in intensity. The height of the storm had not been reached.

No casualties have been reported in the Mobile area and the damage to property was limited principally to uprooted trees and broken windows.

By Associated Press.

Mobile, Sept. 20.—The barometer had fallen to 29.21 at 10 o'clock and an 81 mile wind was sweeping the city.

By Associated Press.

Birmingham, Ala., Sept. 20.—A radio message from a Warrior River barge service boat twelve miles

north of Mobile said that all lines of communication with Mobile had been lost there and that the storm was rapidly gaining in intensity. All boats on the river had scurried to cover.

Many residents of Mobile sought places of safety in downtown hotels and office buildings, according to wireless messages received by the Warrior River Barge Service at Birminham. After that message was received Mobile became silent and the wireless had failed.

Most business was suspended, street car service was tied up and no church services were held. The city, however, felt that it would be able to weather the storm with its buildings built to withstand just such a hurricane.

By Associated Press.

Gulfport, Miss., Sept. 20.—The barometer at 11 o'clock was 29.36. Wind still holding close to north and blowing about 50 miles an hour in gusts. Light rain with sky becoming overcast. Tide normal and falling.

By Associated Press.

New Orleans, Sept. 20.—All telegraphic and telephone communication between New Orleans and Mobile was severed shortly before noon today.

The Tropical Radio Telegraph Company reported a short time later that its station at Mobile reported a 100 mile an hour gale at 10 o'clock with the barometer down to 29.05.

Airplanes Take A. P. Men to Scene

By Associated Press.

Atlanta, Ga., Sept. 20.—The first news direct from Miami, Florida, since that city was cut off by the hurricane came today from R. S. Pickens and M. B. Alexander, staffmen of the Associated Press, who were dispatched to the storm area by airplanes.

They started from Atlanta Sunday morning in plane piloted by Beeler Blevins of Candler Field. They stopped at Tifton, Ga., and Palatka, Florida, for refueling. Nothing more was heard of them until today when their story came through from Miami.

The airplane had to buck head winds and storms en route.

### Descending on Pensacola.

By Associated Press.

Atlanta, Ga., Sept. 20.—The devastating hurricane which raged across the lower part of Florida over the week-end, today was reported descending upon Pensacola in the extreme northwestern part of the same state. All wire communication with Pensacola was interrupted early this morning. The storm apparently was headed toward Burwood, La.

By Associated Press.

Mobile, Ala., Sept. 20.—The weather bureau here reported at 7:20 o'clock that the wind velocity had reached one hundred miles per hour at Pensacola.

## STORIES HEROISM AND TRAGEDY COME FROM STRICKEN AREA

By Associated Press.

Mobile, Ala., Sept. 20.—(Via telephone to Hattiesburg, Miss.) At 1:45 o'clock this afternoon the official reading of the United States Weather Bureau's barometer showed 28.91 and was gradually dropping.

## SENATE FINALLY PASSED GENERAL VALIDATION BILL FOR TEXAS ROAD BONDS

By Associated Press.

Austin, Texas, Sept. 20.—The Senate Monday finally passed the general validation bill by Senator John H. Bailey of DeWitt county by a vote of 22 to nothing.

This bill validates and legalizes the creation of road districts affected by the United States Supreme Court decision in the Archer county bond case, to the amount of \$100,000,000. It validates and authorizes issuance and sale of bond issues by or on behalf of the road districts, and the levy of taxes for the payment of the bonds, and authorizes the assessment and collection of general ad valorem taxes in all road districts for the payment of all road district bonds now outstanding.

This bill is a blanket validation

bills for each of the 558 districts are being passed. It was

under suspension of rules.

Governor Ferguson in a message to the Senate, at the request of

Comptroller S. H. Terrell, submit-

ted an appropriation of \$98,028.91 for payment to District Attorneys, Mexican war veterans and smaller deficiencies. The 39th Legislature passed an act in the regular session increasing the work days of the district attorneys but failed to make an appropriation.

### House Takes Action.

By Associated Press.

Austin, Texas, Sept. 20.—Validation of district road bonds Monday was expedited in the House when 51 House bills were finally passed, 45 others engrossed, and 18 Senate validating bills read the first time.

Governor Ferguson's request for appropriation of \$98,028.91 to cover emergencies was read and referred to the committee on appropriations.

At the afternoon session, the House passed 48 Senate bond validating bills. These were the first to go through both branches and will now go to Governor Ferguson for signature.

## BIG 5-RING CIRCUS USES ROPE BY THE CAR LOAD

ERNEST CLARK, AERIAL STAR, GIVES A LECTURE ON ROPE.

"Peanuts, spangles and red leno, spliced into their very being. That 'nade' may be important adjuncts is why no greater honor can be bestowed by one artist upon another in connection with the circus, but there is a far more important item, than to offer a hempen diadem, one of which the public seldom thinks. That item is—rope."

Were all the rope that is used in constructing and guying out the four tents of the great Ringling Brothers and Barnum & Bailey plays in the big five-ring circus laid into a coil it would top the tower of the famous Woolworth building. Were it brought down to a single strand, it would span the state of Texas.

When the world's biggest "big top" was being constructed at the Bridgeport quarters last winter, the superintendent of canvas, Jim Whalen, ran short of rope. He telephoned a local hardware store.

"Rope?" came the answer. "Certainly. How much do you need?" "Oh," answered the iconic Mr. Whalen, "about seven miles."

The merchant tanted on the spot.

With the Big Show, rope is ordered by the carload. Two of the heavyest of the 200 wagons carried on tour are loaded with reserve supplies.

And to no one does rope mean more than to the performers. Without it many could not give their acts. To its rarely failing shrews they daily trust their lives. It is a part of them and their art. It is

### THREE MEXICANS EXECUTED CHARGED INCITING REVOLT

By Associated Press.

Mexico City, Sept. 20.—Three men have been executed at Empalme, Sonora, charged with inciting the Yaqui Indians to rebellion.

Nogales dispatches do not identify the men put to death, but say they carried documents showing they represented interests in California and Arizona which desired the Yaquis to rebel.

THREE PERSONS ARE EXPECTED TO RECOVER FROM STAB WOUNDS

By Associated Press.  
San Antonio, Texas, Sept. 20.—Three persons, stabbed with an ice pick Saturday, apparently were recovering Monday, but recovery de-

pended on whether infections set in. Hospital attendants said it would be two or three days before it could be determined if they would live. The stab wounds in themselves were not fatal.

The three were Otto Brandes, aged 61; his estranged wife, Mrs. Christine Brandes, aged 31, and her mother, Mrs. Kate Dietrich, aged 61. The stabbing took place at Mrs. Brandes' home.

## TWO THOUSAND ARE INJURED WHILE MANY THOUSANDS HOMELESS

Continued From Page 1)

ly around and that numerous small buildings were wrecked.

A man reaching Lakeland from Morehaven, however, said most of the buildings were standing. Estimates of the death toll in this section ranged from 50 to 100. The flood was receding today.

**Doctors and Nurses Arriving.**

Doctors and nurses were arriving in the disaster section today, bringing supplies of food and medicine. Urgent calls had been sent out for bread and an appeal was made for equipment to handle 300 X-ray cases at Fort Lauderdale.

Addition reports today told of mounting damage to shipping along the East coast. Several schooners were reported in distress and hundreds of small craft had been piled up on the shore.

By Associated Press.

Miami, Fla., Sept. 20.—Estimates ranging from 600 to 1,500 dead prevailed in the Miami disaster early this morning as first contact with the outside world was established by airplane, automobile and relief trains. The loss was estimated at \$150,000,000.

In the Miami storm disaster area are included Hollywood, Fort Lauderdale, Redlands, Moorhaven and Clewiston.

Little contact with these places had been established as the causeways were flooded and wreckage and high water barred traffic. Because of continued active winds pilots of air planes were reported as wary of attempting to enter the storm area.

Airplanes could not locate any landing places and seaplanes feared the rough and debris filled water.

The American Red Cross had established relief stations throughout the stricken area and the aid of nearby towns and cities was offered.

Efforts were being made to locate relatives or friends of more than 200 children who had been found wandering about what remains of Miami, separated from their families.

Miami was under martial law and none except government or state officials, newspaper men and persons performing mission of relief were allowed to enter.

**Refugees Leaving City.**

Scores of automobiles were leaving here hourly with refugees, for

the most part families with children for whose health there was concern due to the scarcity of milk and the lack of property sanitary facilities.

Identification of the dead in the various sections was proceeding slowly as search continued for additional bodies. City Manager F. H. Wharton of Miami has ordered all persons from the city's streets unless they are in search of missing relatives, attempting to identify the dead or are assisting in relief work.

**TWENTY CORSICANA INDUSTRIES TURN OUT VALUABLE PRODUCTS**

Twenty industries of Corsicana manufactured products during 1925 which totalled in value approximately \$8 million dollars.

This information was furnished the Chamber of Commerce in a letter received Saturday from the Bureau of Census of the Department of Commerce at Washington.

Comparative figures of 1923 show that while the value of manufactured products, number of wage earners and amount of wages showed increases for 1925, a loss of three plants were noted in the summary. Figures for 1925 are as follows:

Number of establishments, 20.

Average number wage earners, 632.

Total wages paid, \$704,877.

Value of products, \$5,092,329.

In his letter to the Chamber, Mr. P. A. Goshell, special agent in charge of field work, explains that the present Corsicana summary is subject to correction and revision. He invites the critical review of the local chamber and asks for co-operation in next biennial census in 1927.

Information files at the Chamber show at the present a greater number of local establishments than the figures in the preliminary government report. Some of these small plants have been established since the last census.

Prices \$15 to \$250.00

At our store you are always welcome.

**Southwestern Music Co.**

The House With a Thousand Satisfied Customers.

**SUNDAY SCHOOL CLINIC TO BE HELD AT FIRST BAPTIST**

GEORGE S. HOPKINS

George S. Hopkins of Dallas will have charge of the Sunday School Clinic to be held at First Baptist Church, Corsicana, October 24-31. Mr. Hopkins was formerly educational director of Cliff Temple Baptist Church, Dallas, where Dr. Wallace Bassett is pastor. I am not partially to experts. An expert is sometimes just another way of complicating the problem. Mr. Hopkins, however, is far from being a typical expert.

He is not a specialized mind. He looks at a question from all sides. He thinks clearly and sees them whole. He succeeds in general Sunday School work before he begins experting, and he is succeeding now. He brings them to pass. While he is intensely practical, he has developed a technique which is in advance of the times. He has engaging personality, possesses tact and sympathy as well as efficiency and is very much sold on his work.

George S. Hopkins built a Sunday School of four thousand members while associated with Dr. Wallace Bassett at Cliff Temple. The First Baptist Church is preparing for this campaign in this city. The religious Census is being taken before these Clinic experts come. This campaign will follow the revival meeting held at First Baptist Church.

**FUNERAL SERVICES MONDAY AFTERNOON FOR H. V. CHENEY**

Funeral services for H. V. Cheney, aged 59 years, who died Saturday night at Vernon, Texas, were held Monday afternoon at the residence of Mrs. F. M. Cheney at 4 o'clock with interment in Oakwood cemetery. The funeral services were conducted by Rev. J. Howard Williams, pastor of the First Baptist church. Mr. Cheney was single. He had resided in Corsicana for several years and recently had gone to Vernon.

Surviving are two brothers, Will Cheney, Corsicana, and Joe Cheney, George; two sisters, Miss Fannie Cheney and Mrs. M. H. Sandwich both of Corsicana. A number of other relatives also survive.

EASEL PHOTOGRAPH FRAME: 5x7 to 9x12 inches. Variety of styles and finishes, your choice \$1.50 each.—City Book Store.

**JAMES WEST HAS RIGHT ARM BADLY BROKEN SATURDAY**

James West, 11-year-old son of Mr. and Mrs. J. C. West, suffered a badly broken right arm late Saturday while playing on a "scooter" near the West home, at 1820 Seventh avenue. The arm was broken about midway between the wrist and elbow and the bone protruded through the flesh as a result.

Surgical attention was immediately summoned and the arm was set and placed in a cast and James was reported as doing nicely Monday. This is the second time James has had his right arm broken in practically the same place and in the same manner.

**Large Dental Firm Open Offices Here**

Announcement has been made of the opening of dental offices in Corsicana by Mayo Brothers, one of the largest dental organizations in the Southwest. Their offices are located at 105 1/2-1/2 North Beaton street in the offices formerly occupied by Dr. Tissier.

Mayo Brothers enjoy an enviable reputation throughout the State and their offices are operated in all the important cities with only experienced operators in charge.

Mayo Brothers have offices in Houston, Beaumont, Corpus Christi, San Antonio, El Paso and Corsicana.

**EXPLOITATION OF TEXAS PROGRESSING SATISFACTORY WAY**

Plans for exploitation of the natural resources and strong appeals of Texas are rapidly maturing and the preliminary work is now in full swing for the nation-wide campaign, W. V. Crawford, managing director with headquarters in Waco, writes to the local Chamber of Commerce.

Mr. Crawford asks the Chamber to co-operate with the campaign and supply immediately a complete summary of the agricultural advantages, natural resources and industrial opportunities of the Corsicana territory.

This ambitious program for telling the world about Texas is expected to be a strong impetus to the "constructive boom" which is forecast for the state.

## GOSSIP OF OLD WORLD CAPITALS

BY ASSOCIATED PRESS

## BERLIN

Members of German Reichstag Like Members of American Congress.

## PARIS

Bungalow Idea is Spreading Rapidly Throughout France Recently.

## LONDON

Cakes Bearing Messages of Lovers Who Have Quarreled English Idea.

By Associated Press.

Berlin, Sept. 18.—Members of the Reichstag appear to be unanimous on one question—that is a raise in salary. So far, however, no member has dared bring in a bill voting himself an increase, although it is generally agreed that \$1,700 a year is inadequate.

Albrecht Morath, a representative of the Peoples party, of which Foreign Minister Gustav Stresemann is a leading member, says few Reichstag members manage to live in Berlin nine months in the year on their salaries.

Before the republic was established, he asserts, members received \$715 a year, but the Reichstag was in session only a few months. Now the expenditures for postage alone are said to be several hundred dollars, members having no banking privilege, as in the United States.

## Hindt Takes a Chance.

President Von Hindenburg, whose vacation began on the heels of an unprecedented series of railroad wrecks, declined an offer of the National Railways administration to order for him safety measures such as were taken whenever the former Kaiser traveled by train.

Railroad officials wanted to send out pilot engine with armed guards over the route to Munich a few minutes ahead of the presidential train but Von Hindenburg for reasons of economy said he was content to have his private car hooked to the regular Munich night express.

## This Is Big Business.

Eleven years after a telephone was installed in his home a man who in the peoples form of a Berlin newspaper signed himself "A. H." said he received a notice from the telephone company telling him that his application for a phone was improperly filled out and had to be corrected.

The subscriber said his telephone was installed in September, 1908. The notice, dated and received a few days ago, informed him that regulations required applicants to write out their first names instead of using initials.

## Has Turned Culturist.

Major Ernst Kieger, retired who fought in 28 battles and was wounded 10 times during the World War, is doing his bit to "beat swords into plowshares and spears into pruning hooks." He now heads the "Kultur" division of the Universum Film Co., the largest film trust in Germany.

The kultur department specializes in films showing human progress and acquainting the world with inventions and discoveries by means of slow motion and regular pictures.

## Small Taxes Popular.

When some months ago an enterprising concern placed at the service of the Berlin public, a cheap one passenger taxi in the form of a closed side car motorcycle news-paper columnists cracked many a joke.

This cheap means of locomotion, however, had become so popular that another company has constructed a three-wheeled minia-ture taxi which will also carry one passenger, the fare being the same as on motorcycles. The passenger sits on the front seat separated from the driver by a partition.

## Rewarded at Last.

Robert Kell, 82 year old weaver who has held only one job all his life has retired on a pension after 62 years of service with a specialty textile company at Guben. Kell received hundreds of congratulatory telegrams including one from President Von Hindenburg. Mr. and Mrs. Kell will celebrate their sixtieth wedding anniversary in a few months.

# DUKE & AYRES 5c TO 50c STORE

## =BIG OPENING SALE=

### Corsicana, Texas

Friday, Sept. 24th  
Sat. Sept. 25thSale Opens 9 a. m.  
Friday

We have just completed the installation of one of the most complete Variety Stores in Navarro County. Modern Equipment throughout and the largest and most varied stock of merchandise ranging in prices from 5c to 98c to be found in this part of Texas. In celebration of our New Store we will have a **BIG EXTRA SPECIAL** Opening Sale, starting Next Friday at 9 a. m. and continuing throughout Friday and Saturday.

For this Great Event we have purchased a lot of Merchandise which we will sell at Cost and Below. We extend an invitation to every Man, Woman and Child in Navarro county to visit our store Next Friday and Saturday, and see the many Extra Special Values we are offering for this sale.

Our Motto is: "Courtesy, Quality, and Low Prices."

Watch Our Windows for Special Sale Items.
